## REMARKS/ARGUMENTS

In his Office Action, the Examiner merely objected to Claims 5 and 6 because of the unclear use of the term "BSI" in Claim 5. Because Claim 5 originally depended from Claim 2, the limitations of Claims 2 and 5 have been incorporated into Claim 1 as set forth above. The original Claim 5 limitations are now found in new elements H) and I) in currently-amended Claim 1. They are now preceded by a characterization statement and are thus slightly reformatted for clarity. As defined in the specification, the term "boot sequence identifier" has been substituted for "BSI". The limitations of original Claim 2 are now found in element E) of currently-amended Claim 1.

Claims 2, 3, 4 and 5 are correspondingly cancelled hereby, and Claim 6 is currently amended to depend from currently amended Claim 1 rather than original Claim 5.

In view of the amendments set forth herein and the discussion above, it is respectfully believed that the case is now in condition for allowance, and an early notice to that effect is earnestly solicited.

Respectfully submitted,

James H. Phillips, Esq.
